Habit & Habitat details

Provide details such as dimensions, flower colour, fruit characteristics, bark description (especially for eucalypts); habitat notes with associated species, vegetation type, geology, abundance, etc. Specimens together with this data are often retained for the herbarium collection. Not necessary for cultivated material. Attach multiple pages where necessary or contact us to submit electronically.

Permits and licences to collect

Before collecting plant specimens, permission from the land holder and/or manager of public or private land should always be sought. Licences are required to collect from threatened species, populations and ecological communities listed under the *NSW Biodiversity Conservation Act 2016*. Please attach relevant documentation with this form.

Specimens submitted become the property of the National Herbarium of New South Wales.
Visit NSW Flora Online at plantnet.rbgsyd.nsw.gov.au to help identify plants of New South Wales.
